THE most perfect DRY GAS METER in the World.—N. DEFRIES, Dry Gas Meter maker, in directing the attention of the Public and the Gas Companies to his having just erected an extensive Factory, 19, Hampstead-road, in connection with his old-established premises, 67, St. Martin's-lane, begs to say that he can now MEET any DEMAND for METERS, from 5 lights to 1,000. The sale of 18,000 meters and the rapidly increasing demand, since the complete Exeter Hall eight years' experience has proved to be unaffected by weather, by time, or by injurious gas. LESLIE'S PATENTS.—GAS CONSUMERS guaranteed the following important sanatory and economic advantages:—

1. His BURNERS are purposely MADE TO DETECT FOUL GAS, as injurious to health, as destructive of property, and as expensive to the consumer; the expense and danger increasing with the impurity.

2. His new Patent GLASS COMBUSTION CHAMBERS are made in store for the MORE PERFECT PRODUCTION OF LIGHT, from either three, four, or five cubic feet of gas per hour, according to the requirement of light by the consumer, all of which are applicable to one and the same burner of twenty-eight holes.

3. These philosophical arrangements produce an IMMENSE INCREASE OF LIGHT, from any equal quantity of Gas, over every burner yet offered to the public; and over the Fish-tails and Bat-wings the increase of Light is above 100 per cent.

4. His new Patent AUTOMATON GAS ECONOMIZER effectually PREVENTS the WASTE, NUISANCE, and EXPENSE arising from sudden variations in supply from the gas mains, and renders the Burners Light-producers, and not Smoke producers: these will vary in price according to the duty they have to perform, from 10s. upwards.

PRICES:—Upright Burners, with Cozyaghan Spring Glass Holders, with either sized glass, Combustion Chamber included, 7s. each; Side Burners, ditto, ditto, each; extra Glass Combustion Chambers, 2d. each. SAMPLE PACKAGES, with one burner and a set of the glass combustion chambers, will be forwarded on receipt of a post-office order, payable to JOHN LESLIE, at the Charing Cross office, for 8s. if a side burner, or 10s. if the upright be desired.
